

Alexis Mineaud's Curriculum Vitae

My name is Alexis Mineaud. I'm french, I'm 33 years old and I have about 10 years experience. I mainly work with web technologies but during my studies, I instead used low-level languages such as C, C++.

At the same time, I started doing some stuff in PHP like the traditionnal CMS with its custom modules!

I'm curious so I used various web technologies which allow me to have a rather broad vision of what is possible to do in a browser.

Today, I mainly use JS/Python/Perl at work with a big focus on all JS modern tools.

Introspection

I love to learn and challenge myself. I'm always looking for new ways to do to make it simpler and better. I love clean, small and powerful code.

But I know to be pragmatic when the situation requires it and not be too stubborn. I know question myself and I willingly accept criticism.

I'm not a natural leader but I know manage people if necessary. I like open and honest discussions, imagine things with people, share feelings, feel that people trust me and know I can count of them.

Note: My MBTI psychological type: [INTJ \(http://en.wikipedia.org/wiki/INTJ\)](http://en.wikipedia.org/wiki/INTJ).

Stuff I'm used to play with:

Javascript:

- AngularJS, Reactjs, jQuery, D3
- Lodash, Moment.js
- Express, Swig
- Jasmine, Mocha, Karma, Protractor, Selenium

- socket.io, async, q, orm2
- Gulp, Grunt, Yeoman
- jshint, jscs
- npm, Bower

Python

- Pyramid, Flask, Django
- Jinja2
- SQL Alchemy
- Celery
- Twisted

Perl

- Catalyst, Dancer
- Template Tool Kit

Web

- HTML5, SVG, Canvas
- CSS3, Less, Sass
- Bootstrap, Compass

Databases

- Mysql, PostgreSQL
- CouchDB, MongoDB, RethinkDB

CI, Bugs trackers, Collaboration Tools, Versionning, Deployment

- Jenkins
- Travis
- Gitlab
- Github
- Trac
- Git
- Docker

OS

- Linux (Archlinux, Debian, Mint)
- Windows

Some other technos that I used occasionally:

- PHP: Zend Framework, Cake, Symphony
- C++, C#, VB.NET, VBScript
- Oracle (pro*c), SQL Server
- Photoshop

My current readings:

- Full isomorphic JS apps
- Angular 2.0
- Go
- Rust
- Phaser (JS library to create games)
- Mobile web development (ionic framework)
- Android native development

Carrer

- Since 2008: Gandi SAS
 - Lead frontend developer
 - Development of the Gandi Website:
 - purchasing processes
 - shopping cart
 - billing interfaces
 - backoffice...
 - AngularJS apps
 - Data vizualisation with D3
 - Generic components like data grids, libraries...
 - Gulp builds
 - Selenium E2E tests (python webdriver, Protractor)
- 2005-2008: Cerealog
 - In charge of the web section
 - Francofolies website (famous music festival in France)

- ticketing system
- concerts agenda
- backoffice
- Online shops
- Medical app
- Intranet

Education

- 2005: Master of computer sciences
- 2002: BTS Industrial Computing

Sports

- Aïkido
- Mountain bike
